PERSONAL PROFILE

I am a pre-final year student of Information Technology Engineering at the Maharaja Agrasen Institute of Technology in New Delhi. I predominantly deal with backend development, but I am also familiar with frontend frameworks. I am a quick study who is eager to learn new and intriguing technology.

SKILLS

Django

Django-rest
Framework

Python
Programming

C/C++ Programming

SQL

FireBase
(firestore)

React.js

JavaScript

Git

MicroServices

Rest API

Web Scrapping

WORK EXPERIENCE

Aug21 -Oct21 **Software Engineering Backend Intern**
GetWork.org

- Made and maintained many APIs using Django-rest-framework.
- Contributed to making a real-time chat feature using React.js and Firebase.
- Used web Scrapping for providing insightful leads to the sales team.
- Reusable code and libraries were created for future usage, and the programme was optimised for optimal performance and scalability.

Dec 20 - Mar21 **Technical content writer**
GeeksForGeeks

- Wrote articles and blogs on data visualization and python with complete descriptions of the topics with written code samples and graphs.
- I wrote thorough posts on several Python libraries such as seaborn, matplotlib, and BeautifulSoup.

EDUCATION

Aug 19 - Jun 23 **Bachelor of Technology, Maharaja Agrasen Institute of Technology**
Guru Gobind Singh Indraprastha University, New Delhi, India

- Cumulative CGPA: 8.78/10.0 ; 4th-semester CGPA : 9.20/10.0
- Field of Study: Information Technology

PROJECTS

Costumer Relationship Management System

- This is a costumer relationship management system where an organization can register and then create agents under them. Leads will be created by organiser and assign them to respective agents.
- This was created using django and using django templates as frontend.

Polling Application

- This is a polling application where an user can create a poll share its link and all other users can vote and see the result.
- This was made using Django and django templates for frontend.

COMMUNITY EXPERIENCE / ORGANIZATIONS

Feb21-Mar21 **GreenYatra**

Helped the sustainability manager at green yatra for their prestenations and content.
